

(b) For a Contract Award Budget, list each proposed construction contract to be included under Account 1480 in Column (2) by name of contractor and type of work. Opposite each such listing, enter in Column (4) the appropriate amount from the corresponding Form HUD-52396, Analysis of Proposed Main Construction Contract.

(c) List all work and equipment not included under a formal construction contract (e.g. utilities extension/connection costs) by type under the applicable account. Identify by showing vendor name in column (2) and adding "NIC" after the item.

(d) Show approved force account work as separate labor and material cost items at each applicable construction or equipment account, and identify each by adding "(FA)" after the item.

(e) Distribution of Construction Contract Amount(s). Show on the Final Budget all construction contract amounts (including all approved changes) which were initially reflected at Account 1480 at contract award. Each final construction contract amount should be distributed to the appropriate subsidiary account (Accounts 1450 through 1475) after the final billing under each contract has been paid. All such costs will therefore be entered in column (3) as an actual cost incurred. The Final Budget shall be accompanied by supporting data listing (a) the name of the contractor and type of work performed under each construction contract executed; (b) each original contract amount established and shown on form HUD 52396 at Contract Award stage; (c) a listing and identification of account classification for each change order approved for each construction contract; and (d) each final contract amount, including all change orders.

D. Subpart III. Cost of Relocation and Existing Improvements.

Enter information only with the Contract Award Budget. If the site was wholly vacant at the time it was acquired, enter "Site Wholly Vacant" on the total line and make no other entries. If the site included dwelling and/or nondwelling structures at acquisition, the amount entered on the first line shall be determined by prorating the total acquisition cost of the site in the ratio that the appraised value of the improvements bears to the total appraised value of the site. On the second line, show the total amount included under Subpart II for demolition work (line 51), if performed under separate contract or the estimated amount if performed under a single construction contract. On the third line, show the amount included in Subpart I, line 47, Column (5). Attach schedules detailing all costs comprising these amounts.

E. Subpart IV. Detail of Donations (Not MH Contributions).

For the detail of donations, enter an itemized description of donations identifying applicable account (paragraph C.1. above) and deduct the total donations from the Total Development Cost as described in paragraph B.12. above. MH Contributions are not donations.

F. Subpart V. Detail of MH Contributions.

Provide the detail of MH Contributions by showing for the various accounts, as applicable, the amounts comprising each form of MH Contribution.
